Project Title: J. K. Rowling Website

I think this website would be multiple pages, with navigation along the top or side. There is a lot of content, and some images. Might need to find some other sources for images.

- **Home Page** – photo of Rowling, with some info about what she is most known for. (novelist, philanthropist, film producer, television producer and screenwriter.)
- **Education/Inspiration and mother's death**
- **Harry Potter Books**
- **Harry Potter Films**
- **Other books/publications**
 - The Casual Vacancy
 - Cormoran Strike
- **Philanthropy**
- **Sources** – This page will list sources for images and info, so the Wiki page, and any other credits needed.
